Special Offer From Metamend

Want to Improve Your Hosting Offerings and Add New Revenue?

Metamend, the world leader in Search Engine Optimization (SEO) solutions, has teamed with Microsoft to offer Web Hosted Program members a great offer on this essential service.

Metamend is a Web-based SEO service. They automatically perform the time-consuming, manual processes presently required in optimizing Web sites and properly submitting them to the search engines. Designed to fit into your existing hosting packages as a private label solution and as an easy add-on sale, the Metamend solution will help you find a new revenue stream that will enhance all your product offerings.

Automation Ensures Survival and Profitability

Using Metamend, your add-on sale customers can sign up themselves using your existing administrative interfaces. Customers who opt in as part of their hosting package can be provisioned automatically. The software takes care of the rest automatically.

- Private label revenue shares allow you to increase your margins and revenue.
- The service design ensures that the solution is always up-to-date with the latest search engine algorithms.
- Solidifies your service offerings by providing your clients with an effective customer acquisition strategy they can afford.
- Automated provisioning is standard.

What Metamend offers you and your customers:

- Optimization to ensure that the site can be absorbed into the search engines.
- Always up-to-date with the latest search engine algorithms and rules.
- No patches to install, or upgrades to buy.
- Improved customer satisfaction.
- Acquisition of more customers, via the search engines.
- Secure and reliable service.
- 100% Web-based solution.
- Fully Scalable.
- COMPETITIVE ADVANTAGE: Fully automated.

Only companies using effective, automated, tools for core client services will have the economics to survive in this very competitive, rapidly evolving industry. If you are serious about how your Web hosting business will survive, you need to choose the right automated tools and services for you and your clients. When you automate manual processes, you will see an immediate reduction in expenses and churn and an increase in profitability. When you add an effective automated service to your client offerings, you will see an immediate growth in revenue, and an increase in profitability.
